Tag Team Tennis

Let's play

- Two teams of two
- Make a garden using markers or lines that is separated by a barrier or 'no go gap'
- Start with two children (one from each team) with the other children scoring
- The first team to score 10 points wins
- At the side of the court put a row of 10 cones to help keep score (turn over when a team has won the point)
- Stop at the end of each point and agree the score before the next point
- After every 4 points both children are 'tagged' (replaced) by their team mate and play continues. The scoring is continuous.
- Once a team has reached 10 points, shake hands with your opponents.
- Decide how to rotate the teams to play as many teams as possible.
