Team Cones

Let's play

- Two teams of 4
- Make a two zone play area that is separated by either a low net or a 'no-go' gap/area (wider the gap the higher the imaginary net)
- One team in the zone on one side of the net or gap, the other team opposite them in the other zone
- Play a match of 5 points, so the score could be 5-0, 4-1 or 3-2 etc.
- The winning player gets a cone for their team
- Work out a way to play everyone from the other team
- The winning team is the team with the most cones.
